PRICE THREE CENTS.

KOMMERS BEGIN.

There are to be Entertainments by Special Speakers as well as by the Classes.

The Saturday evening Kommers at the Tech Union are to begin again next Saturday evening on a scale never attempted before. Bursar Rand, who has direct charge of the Union, is arranging a program that will make the meetings not only pleasant, but also instructive and interesting.

Mr. Rand intends to have each of the classes take charge of an evening, similar to the plan tried last year, so as to make a class affair of each class night. On other evenings, men who are prominent in political, commercial, and scientific life will address the students on subjects which will be very interesting.

Dr. Pritchett's purpose in starting the Kommers was to promote social life at the Institute by giving the professors, instructors, and students a chance to become acquainted. A man gets a good meal, listens to a good speech, or a good entertainment, and then has a chance to talk sociably with his instructors and fellow students.

In former years, poor attendance has hampered the working out of this purpose, and Mr. Rand, together with the House Committee, are now trying to make the Kommers a social, as well as a financial, success.

The charge for the dinner, twenty-five cents, is not to be increased, as it is desired to keep the price within the reach of all. The charge is hardly enough to pay for the dinner that is served, so a large attendance is necessary to make the Kommers a success, both socially and financially.

TRACK TEAM.

The following men will please report at once to Coach Mahan at the Gymnasium to begin training for the Indoor Dual Meet to be held with Tufts on Wednesday, Feb. 21: Richards, Todd, Gibbons, Snow, Moses, Williams, Lightner, Noyes, Eaton, Whittaker, Albrow, Godfrey, Keene, Farrington, Burleigh, Howe, Beam, Thomas, Blackburn, Gimson, Clapp, Howard, Callaway, Chapman, Buckingham, Orr, Hohnquest, Richardson, Rapelye, Davenport, Polhemus, Harvey, Breitzke, Pierce, Critchett, Godfrey.

SOPHS WILL DISCUSS TECHNIQUE.

The Sophomore Class will hold a meeting in Huntington Hall Friday at 1 o'clock to discuss the question of *Technique '08* Electoral Committee. Members of former *Technique* Boards will inform the class concerning this work.

The Committee is so important that every man in the class is expected to be present. A Committee will be chosen to take charge of the arrangements for Sophomore night at the Kommers.

GOOD CONCERT GIVEN.

Musical Clubs Have Pleasant Trip to Somerville.

On Monday evening the Musical Clubs gave a successful concert at the M. E. Church in Somerville. All the clubs and soloists were at their best, and the large audience present showed its appreciation of every number by hearty applause. The program was:

MR. SWEET TO ADDRESS Y. M. C. A.

Sidney E. Sweet, Yale '05, College Y. M. C. A. Secretary for Massachusetts and Rhode Island, will address the Technology Christian Association tomorrow. He will describe in brief the Student Volunteer Movement, which holds its Convention in Nashville, Tenn., during the first few days of March. The Technology Association is much indebted to the Old South Church, Emmanuel Church, Central Congregational Church, and others for making it possible to send the four following elected delegates, F. O. Adams, Sp. 3d yr., T. C. Keeling, Sp. 2d yr., L. W. Brock, 3d. yr., and D. S. Gates, Col. Sec. to it.

LOWELL COURSE BY PROF. CROSS.

The first of the eight lectures in Professor Cross' Course on Electricity was given in Huntington Hall Tuesday night at 8 o'clock. It was on "The Electro-Magnetic Waves of Hertz," and the rest will take up wireless telegraphy, the different kinds of rays and radio activity, also their bearing on physical theories.

MUSICAL CLUBS MEET.

A business meeting of the Musical Clubs was held in 22 Rogers Tuesday afternoon at 4 p.m. The fobs worn by the members were exhibited and a committee was appointed to receive orders for fobs. The advisability of maintaining club rooms for rehearsals and meetings was discussed, and a motion carried that a committee of three, one man from each club, be appointed to investigate the matter.

SHOW CANDIDATES MEET.

First Steps Toward Staging the Show Taken.

The candidates for parts in the Tech Show met at the Union last Monday afternoon at four o'clock. There were from ninety to one hundred students present. Most of last year's men were back and considerable new material turned out. Business Manager Parlin explained how to make out the applications for parts. He said that the Colonial Theatre, which is very much larger than the Hollis, had been obtained for this year's presentation, and added that several out-of-town performances would probably be given.

Macomber then spoke about the play itself. He said that as far as manuscript was concerned the play was by far the best that had ever been produced at the Institute. The plot has been cast along more dramatic lines than heretofore and the chorus has been reduced from eighty-five to fifty-five persons. He announced that there would be three rehearsals a week with such extra ones on Sunday as were deemed necessary. There will be an all-day rehearsal on April 19. After three weeks the process of weeding out will begin and it will continue until the proper number of participants are left. Mr. Mullahby, who formerly coached at the Hollis, has been engaged to train the chorus, and Mr. James Francis will coach the principals again this year.

A result of the change in the character of the play is the greater opportunity offered for good acting. There will be fewer attempts to cover up defects and, as there are only a few parts to fill, the management will be able to pick the principals with greater discrimination than in former years. As a closing remark, Macomber said that he hoped no man would use the Show as an excuse for neglecting his work as it gave the play a bad name. The men who were trying for the chorus were then dismissed. When order had been secured Macomber gave a summary of the play and described the different characters.

Roswell Davis, '05, spoke of the pleasures experienced in the work, and said that none of the candidates would ever regret having gone into it. The cards were collected and everyone left except the candidates for assistant stage manager and the men who took leading parts last year. Macomber gave these a talk on their prospective duties and said that no student who was not up in his work need apply for a position.

PROF. TALBOT TO SPEAK.

Prof. Henry P. Talbot will speak in Cincinnati, Ohio, Friday evening, before the Tech alumni in that city. He will start tomorrow morning, and on his way back will visit Oxford, Columbus, and Cleveland, Ohio.

WILLIAM A. NICHOLS, PRINTER, 208 SUMMER ST., NEAR

We regret to announce that B. D. Johnson, '07, has been obliged to resign from THE TECH on account of his studies.

Sophomore Philosophy: Be pleasant every morning until after Calculus, and the rest of the day will take care of itself.

A student's paradise is life without a flunk notice.

The Wisconsin Daily says:

"Fussing is no more! Not that the practice has ceased, but that the word 'fussing' has gone the way of spooning, flirting, and all the rest. It is said there is a new word on the way from the east that will drive away fussing and river-banking as the wind does the leaves, and take us by storm, giving us a startling new word for an old game."

Who in the east knows the new word?

The results of the B. A. A. games were very gratifying indeed from a Technology standpoint. First, second and fourth places in the 40-yard handicap Meet. and a victory over Bowdoin in the relay race were more than even the most sanguine of Tech men could expect. Although Bowdoin's relay team has had more experience than that of Technology it lacked speed enough to win. Too much credit cannot be given to the winners and to Coach Mahan for the successful results of their work. Considering the fact that training for the Meet was carried on at the same time as work for the mid-year exams, the showing is exceedingly good.

Advice to the Faculty as a subject for editorials is a realm into which only fools rush and where angels fear to tread; and yet it seems as though a word in that direction might be well worth while.

Cannot something be done about the existing conditions in the libraries? In the warm days of the spring and fall everything works to perfection; those who wish to talk, smoke, or merely idle away the time have Rogers steps and the fences about the Engineering Buildings on which to congregate. The libraries are left to the studios. The cold weather, however, drives the sociable student into the buildings and the libraries are the only comfortable gathering places. The talkative man cannot carry on his conversation with any pleasure or freedom; while, on the other hand, any one who has ever tried to study with a dozen or more students waiting around for some class to begin, knows how futile the attempt is. In short, the student cannot study and the talkers cannot talk. "If the talkers kept quiet," some one says. Yes, that will come with the millennium, but in the meantime it seems only just that a man who wishes to see something of his fellow-students may have some comfortable place to go, and that any one wishing to study may have a suitable spot.

Found. — In front of right end of Technology section at B. A. A. games a flat silver pencil case.
